## ARIAN KADIU AND SOME CONTRIBUTIONS TO THE FIELD OF SCIENCE, LITERATURE AND PEDAGOGY

The article "*Arian Kadiu and some contributions in the field of science, literature and pedagogy*" focuses on the creative and innovative character and activity of Prof. Dr. Arian Kadiu, who's been bestowed the award "Great Master". The author of the article, the Albanian writer, Viron Kona, after informing the reader about the successful works and activities carried out by Prof. Arian Kadiu in the fields of science, education, fiction and pedagogy, elaborates particularly on the contribution of Prof. Dr. Arian Kadiu in designing textbooks in the pre-university education, highlighting their superior scientific and contemporary echelon, as well as the values and helpfulness. The author notes that Prof. Dr. Arian Kadiu has the great merit of further enriching the quantitative and qualitative aspects of these textbooks, in both their form and content, to respond to the modern, democratic and contemporary developments of the country. Consequently, the literary textbooks have become more effective, avoiding the characteristic clichés and stencils of the Albanian school during the years of dictatorship. The permanence and long-term use in the pre-university education indicates their unassailable contemporary content as well as their highly scientific and methodical standard. The article also states that Prof. Arian Kadiu, is credited for introducing modern writers banned from censorship. This contribution - notes the author - is also notable in the field of fiction, where with his written and published works, Kadiu is identified as a modern writer attracting the interest and attention of the readers and authoritative artist communities that have awarded prestigious prizes to his word. After mentioning a number of well-known and successful works of fiction, the author elaborated particularly on the literary analysis of the science fiction novel *A Book for Aliens*. As a writer himself, the author of the article makes a valuable and prominent analysis of this

novel, appreciating its style and composition, Kadiu's creative imagination, the tropes and the beautiful and vital messages conveyed in the novel.

The author of the article gives some special considerations to Prof. Dr. Arian Kadiu from renowned scholars of education, academics, journalists and writers, who, through their short statements, emphasize the outstanding intellectual features and contributions of Prof. Dr. Arian Kadiu, but also express the level of his scientific and literary works, the impressive messages he conveys to the reader and the values they present especially in the field of science, literature, sociology and pedagogy.

The author closes his article, pointing out some important evaluations credited to Prof. Dr. Arian Kadi in years from the President, the local government, the scientific, literary and artistic and pedagogical institutions.
