

## THE ROLE OF THE SERBIAN ORTHODOX CHURCH AGAINST KOSOVO CAUSE (1912-1999)

The paperwork “The role of Serbian Orthodox Church against Kosovo Cause” from 1912 to 1999 presents a study related with the influence of Serbian Orthodox Church, a very powerful institution in the entire history of the Serbian people, in damaging the cause of Kosovo and Albanians in general. It deals with the Serbian Orthodox extremism against Albanians, motivated by the church, as well as the violent displacement of Albanians.

Also in this paper is treated the responsible role of this church in the genocide against the Muslims of the Balkans.

The Orthodox Church was involved in drafting most of the 32 Serb genocide programs against Albanians. Its contribution to the promotion of Serbian fascism is huge throughout history, especially during the recent wars in the Balkans.

During this paper i presented two hypotheses and some questions related to this research:

Hypothesis 1. The Serbian Orthodox Church (SOC) played a very destructive role towards the cause of Kosovo and it was one of the main architects of the Serbian genocide against Albanians.

Hypothesis 2. The Serbian Orthodox Church during the last war in Kosovo performed a religious war against Muslim Albanians.
